**The Elements of Instruction** Michael H. Molenda, Deepak Prem Subramony, 2020-10-26 The Elements of Instruction provides a common vocabulary and conceptual schema of teaching and learning that is fully applicable to all forms of instruction in our digital-centric era. This critical examination of educational technology's contemporary semantics and constructs fills a major gap in the logical foundations of instruction, with special attention to the patterns of communication among facilitators, learners, and resources. The book proposes a new framework for organizing research and theory, clear concepts and definitions for its basic elements, and a new typology of teaching-learning arrangements to simplify the selection of optimal conditions for a variety of learning goals. As trends in media, technology, and methodology continue to evolve, these historically contextual, back-to-basics pedagogical tools will be invaluable to all instructional designers and educational researchers.

**Dancing Across Borders** Charlotte Svendler Nielsen, Stephanie Burrridge, 2019-12-06 *Dancing Across Borders* presents formal and non-formal settings of dance education where initiatives in different countries transcend borders: cultural and national borders, subject borders, professional borders and socio-economic borders. It includes chapters featuring different theoretical perspectives on dance and cultural diversity, alongside case narratives that show these perspectives in a specific cultural setting. In this way, each section charts the processes, change and transformation in the lives of young people through dance. Key themes include how student learning is enhanced by cultural diversity, experiential teaching and learning involving social, cross-cultural and personal dimensions. This conceptually aligns with the current UNESCO protocols that accent empathy, creativity, cooperation, collaboration alongside skills- and knowledge-based learning in an endeavour to create civic mindedness and a more harmonious world. This volume is an invaluable resource for teachers, policy makers, artists and scholars interested in pedagogy, choreography, community dance practice, social and cultural studies, aesthetics and interdisciplinary arts. By understanding the impact of these cross-border collaborative initiatives, readers can better understand, promote and create new ways of thinking and working in the field of dance education for the benefit of new generations.

*How Does Disability Performance Travel?* Christiane Czymoch, Kate Maguire Maguire-Rosier, Yvonne Schmidt, 2023-12-12 This edited collection investigates the myriad ways in which disability performance travels in a globalized world. Disability arts festivals are growing in different parts of the world; theatre and dance companies with disabled artists are increasingly touring and collaborating with international partners. At the same time, theatre spaces are often not accessible, and the necessity of mobility excludes some disabled artists from being part of an international disability arts community. How does disability performance travel, who does not travel - and why? What is the role of funding and producing structures, disability arts festivals, and networks around the world? How do the logics of international (co-)producing govern the way in which disability art is represented internationally? Who is excluded from being part of a touring theatre or dance company, and how can festivals, conferences, and other agents of a growing disability culture create other forms of participation, which are not limited to physical co-presence? This study will contextualize disability aesthetics, arts, media, and culture in a global frame, yet firmly rooted in its smaller national, state and local community settings and will be of great interest to students and scholars in the field.

**Dancing Europe** Nicole Haitzinger, Alexandra Kolb, 2021-12-28 This multifaceted book investigates the place of dance and performance in the development, confirmation and subversion of conceptions of Europe from the 20th century up until today. Its contributions unravel the nexus between Europe and dance from historical and contemporaneous perspectives, and testify to an understanding of Europe based on different constructions of (alternative) societies. Through the threefold themes of identities, languages and institutions, this volume reveals the complexity of this topic. It investigates the construction of European identities in and through performance and their intersection with local or global cultures; explores versatile models of European multilingualism and linguistic diversity on stage; and considers the constructions of Europe, in dance, as conditioned by institutional and socio-political frameworks. The first volume of its kind, it offers a collection of previously unpublished chapters by an international and interdisciplinary group of scholars. It will make essential reading for anyone interested in the fields of dance, performance and European Studies, and serve as an important springboard for

future research in this area.

*Valuing Dance* Susan Leigh Foster, 2019-02-01 Because dance materializes through and for people, because we learn to dance from others and often present dance to others, the moment of its transmission is one of dance's central and defining features. *Valuing Dance* looks at the occasion when dancing passes from one person to another as an act of exchange, one that is redolent with symbolic meanings, including those associated with its history and all the labor that has gone into its making. It examines two ways that dance can be exchanged, as commodity and as gift, reflecting on how each establishes dance's relative worth and merit differently. When and why do we give dance? Where and to whom do we sell it? How are such acts of exchange rationalized and justified? *Valuing Dance* poses these questions in order to contribute to a conversation around what dance is, what it does, and why it matters.

*John Lydgate's Dance of Death and Related Works* Megan L Cook, Elizaveta Strakhov, 2019-10-31 This volume joins new editions of both texts of John Lydgate's *The Dance of Death*, related Middle English verse, and a new translation of Lydgate's French source, the *Danse macabre*. Together these poems showcase the power of the danse macabre motif, offering a window into life and death in late medieval Europe. In vivid, often grotesque, and darkly humorous terms, these poems ponder life's fundamental paradox: while we know that we all must die, we cannot imagine our own death.

*Dance in US Popular Culture* Jennifer Atkins, 2023-07-21 This innovative textbook applies basic dance history and theory to contemporary popular culture examples in order to examine our own ways of moving in—and through—culture. By drawing on material relevant to students, *Dance in US Popular Culture* successfully introduces students to critical thinking around the most personal of terrain: our bodies and our identities. The book asks readers to think about: what embodied knowledge we carry with us and how we can understand history and society through that lens what stereotypes and accompanying expectations are embedded in performance, related to gender and/or race, for instance how such expectations are reinforced, negotiated, challenged, embraced, or rescripted by performers and audiences how readers articulate their own sense of complex identity within the constantly shifting landscape of popular culture, how this shapes an active sense of their everyday lives, and how this can act as a springboard towards dismantling systems of oppression Through readings, questions, movement analyses, and assignment prompts that take students from computer to nightclub and beyond, *Dance in US Popular Culture* readers develop their own cultural sense of dance and the moving body's sociopolitical importance while also determining how dance is fundamentally applicable to their own identity. This is the ideal textbook for high school and undergraduate students of dance and dance studies in BA and BfA courses, as well as those studying popular culture from interdisciplinary perspectives including cultural studies, media studies, communication studies, theater and performance studies. Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC-BY 4.0 license.

**The Routledge Companion to Dance Studies** Helen Thomas,Stacey Prickett,2019-10-30 The Routledge Companion to Dance Studies maps out the key features of dance studies as the field stands today, while pointing to potential future developments. It locates these features both historically—within dance in particular social and cultural contexts—and in relation to other academic influences that have impinged on dance studies as a discipline. The editors use a thematically based approach that emphasizes that dance scholarship does not stand alone as a single entity, but is inevitably linked to other related fields, debates, and concerns. Authors from across continents have contributed chapters based on theoretical, methodological, ethnographic, and practice-based case studies, bringing together a wealth of expertise and insight to offer a study that is in-depth and wide-ranging. **Worlding Dance** S. Foster, 2009-06-10 What world has been constructed for dancing through the use of the term 'world dance'? What kinds of worlds do we as scholars create for a given dance when we undertake to describe and analyze it? **Dance Data, Cognition, and Multimodal Communication** Carla Fernandes, Vito Evola, Cláudia Ribeiro, 2022-09-08 Dance Data, Cognition, and Multimodal Communication is the result of a collaborative and transdisciplinary effort towards a first definition of dance data, with its complexities and contradictions, in a time where cognitive science is growing in parallel to the need of a renewed awareness of the body's agency in our manyfold interactions with the world. It is a reflection on the observation of bodily movements in artistic settings, and one that views human social interactions, multimodal communication, and cognitive processes through a different lens—that of the close collaboration between performing artists, designers, and scholars. This collection focuses simultaneously on methods and technologies for creating, documenting, or representing dance data. The editors highlight works focusing on the dancers' embodied minds, including research using neural, cognitive, behavioural, and linguistic data in the context of dance composition processes. Each chapter deals with dance data from an interdisciplinary perspective, presenting theoretical and methodological discussions emerging from empirical studies, as well as more experimental ones. The book, which includes digital Support Material on the volume's Routledge website, will be of great interest to students and scholars in contemporary dance, neuro-cognitive science, intangible cultural heritage, performing arts, cognitive linguistics, embodiment, design, new media, and creativity studies.

**Dancing Youth** Sandra Kurfürst, 2021-10-31 Breaking, popping, locking, waacking, and hip-hop dance are practiced widely in contemporary Vietnam. Considering the dance practices in the larger context of post-socialist transformation, urban restructuring, and changing gender relations, Sandra Kurfürst examines youth's aspirations and desires embodied in dance. Drawing on a rich and diverse range of qualitative data, including interviews, sensory and digital ethnography, she shows how dancers confront social and gender norms while following their passion. As a contribution to area and global studies, the book illuminates the translocal spatialities of hip hop, produced through the circulation of objects and the movement of people.

**Shaping Dance Canons** Kate Mattingly, 2023-04-04 Examining a century of dance criticism in the United States and its influence on aesthetics and inclusion Dance criticism has long been integral to dance as an art form, serving as documentation and validation of dance performances, yet few studies have taken a close look at the impact of key critics and approaches to criticism over time. The first book to examine dance criticism in the United States across 100 years, from the late 1920s to the early twenty-first century, Shaping Dance Canons argues that critics in the popular press have influenced

how dance has been defined and valued, as well as which artists and dance forms have been taken most seriously. Kate Mattingly likens the effect of dance writing to that of a flashlight, illuminating certain aesthetics at the expense of others. Mattingly shows how criticism can preserve and reproduce criteria for what qualifies as high art through generations of writers and in dance history courses, textbooks, and curricular design. She examines the gatekeeping role of prominent critics such as John Martin and Yvonne Rainer while highlighting the often-overlooked perspectives of writers from minoritized backgrounds and dance traditions. The book also includes an analysis of digital platforms and current dance projects—On the Boards TV, thINKingDANCE, Black Dance Stories, and amara tabor-smith's House/Full of BlackWomen—that challenge systemic exclusions. In doing so, the book calls for ongoing dialogue and action to make dance criticism more equitable and inclusive.

*A Companion to British and Irish Cinema* John Hill, 2019-05-07 A stimulating overview of the intellectual arguments and critical debates involved in the study of British and Irish cinemas British and Irish film studies have expanded in scope and depth in recent years, prompting a growing number of critical debates on how these cinemas are analysed, contextualized, and understood. *A Companion to British and Irish Cinema* addresses arguments surrounding film historiography, methods of

textual analysis, critical judgments, and the social and economic contexts that are central to the study of these cinemas. Twenty-nine essays from many of the most prominent writers in the field examine how British and Irish cinema have been discussed, the concepts and methods used to interpret and understand British and Irish films, and the defining issues and debates at the heart of British and Irish cinema studies. Offering a broad scope of commentary, the Companion explores historical, cultural and aesthetic questions that encompass over a century of British and Irish film studies—from the early years of the silent era to the present-day. Divided into five sections, the Companion discusses the social and cultural forces shaping British and Irish cinema during different periods, the contexts in which films are produced, distributed and exhibited, the genres and styles that have been adopted by British and Irish films, issues of representation and identity, and debates on concepts of national cinema at a time when ideas of what constitutes both ‘British’ and ‘Irish’ cinema are under question. A Companion to British and Irish Cinema is a valuable and timely resource for undergraduate and postgraduate students of film, media, and cultural studies, and for those seeking contemporary commentary on the cinemas of Britain and Ireland.

Pragmatist Philosophy and Dance Eric Mullis, 2019-11-29 This book investigates how Pragmatist philosophy as a philosophical method contributes to the understanding and practice of interdisciplinary dance research. It uses the author's

own practice-based research project, *Later Rain*, to illustrate this. *Later Rain* is a post-dramatic dance theater work that engages primarily with issues in the philosophy of religion and socio-political philosophy. It focuses on ecstatic states that arise in Appalachian charismatic Pentecostal church services, states characterized by dancing, paroxysms, shouting, and speaking in tongues (glossolalia). Research for this work is interdisciplinary as it draws on studio practice, ethnographic field work, cultural history, Pentecostal history and theology, folk aesthetics, anthropological understandings of ecstatic religious rituals, and dance history regarding acclaimed works that have sought to present aspects of religious ecstasy on stage; Doris Humphrey's *The Shakers* (1931), Mark Godden's *Angels in the Architecture* (2012), Martha Clarke's *Angel Reapers* (2015) and Ralph Lemon's *Geography* trilogy (2005). The project thereby demonstrates a process model of dance philosophy, showing how philosophy and dance artistry intertwine in a specific creative process.

*Dance Practices as Research* Vicky Kämpfe, 2023-06-18 This book contributes to the growing scientific literature on 'intangible cultural heritage' - determined by UNESCO to be particularly worthy of safeguarding and transmission - by advancing a theoretical-analytical framework for the (in)tangible cultural heritage of dance. By exploring the potential of the 'intangible materiality' of dance practice the book argues that implementing the concept of a 'performative dance-archive' creates a new analytic field: research in praxis. The concept of the 'performative dance-archive' draws out the potential for safeguarding and transmission of dance heritage, but also the challenges of the opposition between living heritage and the codifying of cultural inventories. This book uses the formal and contextual transformation of Argentine tango and German modern dance to discuss this ambiguity of intangible heritage and how the "performative dance-archive" creates a cognitive, empractical approach to determine, archive, and distribute dance knowledge. This is a timely methodological intervention in the context of the increasing importance of the intangible cultural heritage. It enables us to re-revise the concept of (im)materiality and the specific knowledges within cultural practice as a necessary fundamental category for research-processes and societal growth. This book is directed both to researchers in the field of intangible cultural heritage and to practitioners and researchers searching for new ways of investigating methods and perspectives to understand 'immaterial materialities'.

**Beckett's afterlives** Jonathan Bignell, Pim Verhulst, Anna McMullan, 2023-02-21 Despite the steady rise in adaptations of Samuel Beckett's work across the world following the author's death in 1989, Beckett's afterlives is the first book-length study dedicated to this creative phenomenon. The collection employs interrelated concepts of adaptation, remediation and appropriation to reflect on Beckett's own evolving approach to crossing genre boundaries and to analyse the ways in which contemporary artists across different media and diverse cultural contexts - including the UK, Europe, the USA and Latin America - continue to engage with Beckett. The book offers fresh insights into how his work has kept inspiring both practitioners and audiences in the twenty-first century, operating through methodologies and approaches that aim to facilitate and establish the study of modern-day adaptations, not just of Beckett but other (multimedia) authors as well.

*The Oxford Handbook of Improvisation in Dance* Vida L. Midgelow, 2019-02-21 From the dance floor of a tango club to group therapy classes, from ballet to community theatre, improvised dance is everywhere. For some dance artists, improvisation is one of many approaches within the choreographic process. For others, it is a performance form in its own right. With *The Oxford Handbook of Improvisation in Dance*, dancer, teacher, and editor Vida L. Midgelow provides a cutting-edge volume on dance improvisation in all its facets. Expanding beyond conventional dance frameworks, this handbook looks at the ways that dance improvisation practices reflect our ability to adapt, communicate, and respond to our environment. Throughout the handbook, case studies from a variety of disciplines showcase the role of individual agency and collective relationships in improvisation, not just to dancers but to people of all backgrounds and abilities. In doing so, chapters celebrate all forms of improvisation, and unravel the ways that this kind of movement informs understandings of history, socio-cultural conditions, lived experience, cognition, and technologies.
